Quarantine and Biosecurity Review  
GPO Box 858  
Canberra ACT 2601

Dear Panel,

I am writing to ask you to support private biotechnology companies in Australia.

The Quarantine and Biosecurity Review has the potential to lower the rate of research and development by making the acquisition of many 'biological' reagents and samples exceedingly difficult to achieve in a reasonable timeframe (for the purposes of business).

I also ask that you widen your terms of reference to address covert acts of bioterrorism.

Kindly,

Nathan Rogers
